

NORTH WEST REGIONAL CHILDREN'S RESOURCE PROGRAM

Children's Brokerage Program

The North West Regional Children's Resource Program was funded Jan 2010 to administer the brokerage program across the region.

The Homeless Children's Brokerage Support Project has been established to enhance opportunities for children experiencing homelessness to:

- Engage and maintain their education (including early education services such as childcare and kindergarten)
- Reduce social isolation by enhancing access to a range of support, social and recreational opportunities within their community
- Provide social and emotional growth opportunities for children and provide opportunities to increase relational bonds between parents/caregivers and children.

The Homeless Children's Brokerage Support Project also aims to provide further encouragement to homelessness and family violence support providers to integrate child and family centered assessment and case planning into their work practice.

The brokerage program will assist with funding for child care, school camps and excursions, educational needs, tutoring, sports and recreation, and specialist support services. This resource is available to homelessness and family violence services across the North and West Metropolitan Region of Melbourne.

The North West Region has been funded with 20,000 per year, which is broken down into quarterly amounts of 5,000 per quarter.

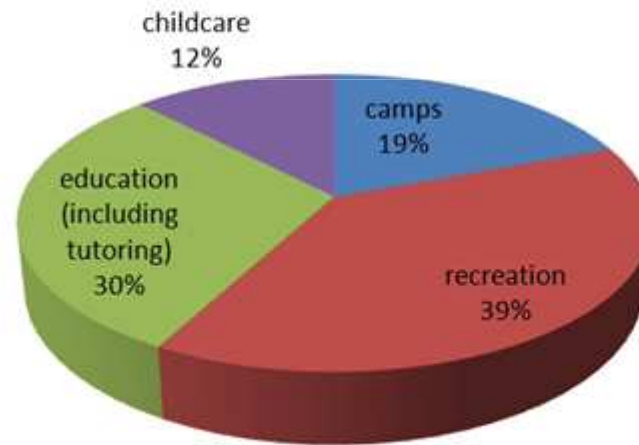

Jan – July 2010
